Discussing the copper market situa-tion, the National Conduit and Cable Company, a large consumer, says in its October letter: "Of course the Discussing the copper market situation, the National Conduit and Cable Company, a large consumer, says in its October letter: "Of course the highly stimulating factor in the prosent unprecedented demand for copper is the gigantic consumption in all leading countries for munition purposes. The indications are that these needs ing countries for munition purposes. The indications are that these needs will continue to absorb enormous quantities of the metal for months to The indications are that these needs will continue to absorb enormous quantities of the metal for months to come. But when the present deplorable war is over there will be much rehabilitation work to do. And an expansion in constructive enterprise will undoubtedly form a prominent part of the programme that will come with a peaceful era. It is therefore with a peaceful era. It is therefore reasonable to expect that under any and all possible conditions the consumption of copper in the future will be on a tremendous scale. The imperative needs of manifold indistries offerings and the high ocean freight rates

Although the general trend of prices was still upward and net gains of from 8 to 12 points were recorded at the Contract: Chicago, Dec. 5012 4358 become much more irregular. With Chicago, May 5418 5312 39 become much more irregular. With Chicago, May 54/3 55/2 39

44/4 values at such remarkably high levels much uncertainty exists as to their future course, and among conservative traders a tendency is noticeable to let matters rest for a while. It is believed that many of the original bulls have taken handsome profits and are now waiting for a substantial recession. Although indisposed to follow when the advance at the moment many of the series of the moment many of the advance at the moment many of the colors.

plainly demonstrated yesterday. An with those of a yearly advance of roughly 20 points was lost before noon, but in the afternoon live seems best, 100 prices rose to the day's highest marks, from which there was another partial live years, best, 100 reaction, followed by renewed hrmness before the close. Buying at the outside the close before the close. Buying at the outside the close before the close buying at the outside the close before the close buying at the outside the close before the close buying at the outside the close before the

market opened about 4 points higher than expected.

Another potent factor was the report of killing frosts in Oklahoma, Texas and Arkansas, and freezing temperature at every station in the first named state. In the face of this early strength there was a sharp break in the New Orleans market, and heavy Southern selling orders, largely arbitrage, were mainly responsible for the forenoon recession here.

Dairy and Barnyard The following are New York prices, yesterday, were mainly responsible for the forenoon recession here.

16 17 16 17 forenoon recession here.

12 13 13 12 13 ment became more pronounced and some of the professional operators seemed to be working strenuously for a break. In some quarters it was made to indicate selling in Southern markets by the circulation of a rumor that the big that the circulation of a rumor that the big that the circulation of a rumor that the bi

as a result larger selling orders, both for actual cotton and speculative contracts, were received from that quarter. The recovery in the afternoon was largely caused by free buying by Western people and by the so-called Waldorf crowd.

*Unilisted. †Seil cents per share.

According to trade authorities the salmon pack of British Columbia has this year been very disappointing, being considerably pelow the average for corresponding years of the quadrennial cycle. Particularly has this been the case on the Fraser River. In Alaska waters the catch is larger than last year.

**Holland of British Columbia has the wheat in Canada had been the case on the Fraser River. In Alaska waters the catch is larger than last year.

18.50 where are displaying greater interest, largely, no doubt, because of oats having been dragging in the rear for so long, compared with other commodities. Buying, of course, was atimulated early in the acasion by the further rise in corn and wheat. Doubties the scarcity of wheat and corn, a well as the stormy weather in the West, will stimulate consumption of ants. Nevertheless, a material upturn was prevented by ample roceipts and the large visible su., . After an advance of 1½ to 1½ there was a weaker tendency, the net advance at the close being %.
